

About Us

Landaff Blue School is a one-room public school, serving students from Preschool to Fourth Grade in Landaff, New Hampshire. Our Preschool Program is available for children ages 3-5 and guides children in developing the foundational skills needed for Kindergarten.

The Blue School Preschool is a Responsive Classroom that uses play-based learning to promote the growth and development of the whole child. We provide experiences that encourage development and individualized skill practice in the following areas;

- Collaboration & Relationship Building
- Social Emotional & Gross Motor
- Emergent Literacy & Language
- Early Numeracy & Science Exploration
- Creative Expression & Movement

COGNITIVE DEVELOPMENT

Cognitive development is defined as how children think, explore, and understand the world around them. More specifically it refers to the process of developing intellectual abilities such as memory, attention, language, reasoning, problem-solving, imagination and understanding. Developing cognitive skills is important because they support independence, confidence and encourages learning connections between school and life.

SOCIAL EMOTIONAL

Social emotional development is critical in early childhood. Children learn to interact with others, manage their emotions and strengthen their ability to form and maintain relationships. Children learn to identify & name emotions as well as how to manage them. They recognize others' emotions and begin to understand empathy. They begin to gain a sense of "Self" and increase independence. Students learn to make friends and practice important social skills.

Early Childhood is an important and exciting phase when children learn about themselves, others and the world around them. For many children, preschool is their first experience being away from their parents and being part of a group in an organized learning environment.
